

Briton

Briton matte black door closers

The Briton 1120 and 1130 Series matte black door closers are non-handed, slimline units designed to be used on commercial interior wooden and metal doors. The Briton 1100 Series have a precision rack and pinion mechanism, and can be easily mounted to the surface of the door or the top jamb.

Modern finish

Briton matte black door closers are an aesthetically pleasing solution. Our matte black finish is the perfect fit for any contemporary commercial building or multi-family residence.

Ease of use

Door closing speed is easily adjustable and can be tailored to user needs.

Coordination

Coordinate your modern matte black trims throughout your living environment to add value and complement your design.

Wide ranging applications

The Briton 1100 series door closers provides a wide range of uses and competitive applications.

Seamless design

All-over one piece metal cover conceals the door closer body and all fixings, providing a neat appearance and reducing the risk of vandalism through tampering.

Warranty

The 10 year mechanical and finish warranty provides assured quality and performance.
