

Instruction Manual
for Verde Solutions Hand Dryer
Model: 2801 'Mighty'

WARNING

Misuse of this product or failure to follow the manufacturer's guidelines as to correct installation and use, may lead to serious personal injury, property damage and a voiding of the warranty.

1. Do not open, modify or disassemble the unit. This may lead to electric shock. There are no user serviceable parts inside.
2. Do not hang from the unit or place any objects on it.
3. Children should be supervised to ensure they do not play with the appliance.
4. Please use a dedicated power outlet.
5. Before performing maintenance, ensure power supply is disconnected.
6. Air filter must be installed.
7. After power is connected, please wait 10 seconds before switching on.
8. If power cord is damaged, it must be replaced by a qualified electrician/repair agent.
9. Environmental Protection-Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist.
Check with your local authority for recycling advice.

FEATURES

Hygienic, Easy to Use

With automatic sensor control, our hand dryer is energy efficient and easy to use. The design allows contactless hand drying, effectively preventing cross bacterial contamination.

Energy Efficient

Dry hands in 7-10 seconds. Uses far less electricity than traditional warm air hand dryers.

Stainless Steel Shell

Vandal resistant design, no "hand grips" on the surface. Elegant design. Solid metal case.

Smart Control, Energy Saving

Using the most advanced IR sensor technology, plus advanced electronic control systems, our product delivers efficient, reliable and accurate performance.

No Mess. Less Cost

With our product there are no messy wet paper towels to clean up and nothing for vandals to clog drains or toilets with. The cost saving of our product over paper towels is enormous.

Safety Guaranteed

With over-current protection fitted as standard, users can be confident of safe and incident free operation.

Auto-stop function, the built in timer will stop the unit after 40 seconds of continuous operation.

The machine is equipped with an automatic heating system. When the ambient air temperature reaches 25°C the heating system will shut down, thus saving even more electricity costs.

Easy Installation and Maintenance

Our product is designed for ease of installation requiring only standard fixings and simple maintenance routines.

Caution! Power must be shut off before any maintenance procedure is commenced.

Our products are suitable for use in most high traffic public venues including sports pavilions, public washrooms, hospital, medical and science and technology facilities.

Warranty

This product comes with a 2 year warranty.

INSTALLATION

Location

Choose a location away from direct water spray.

Please select a flat wall.

Direct sunlight may interfere with sensor operation.

If installed above a bench, please ensure at least 150 mm clearance from bottom of hand dryer to top of bench.

Suggested Mounting Height

From Floor to Bottom of Dryer

Men 115 cm

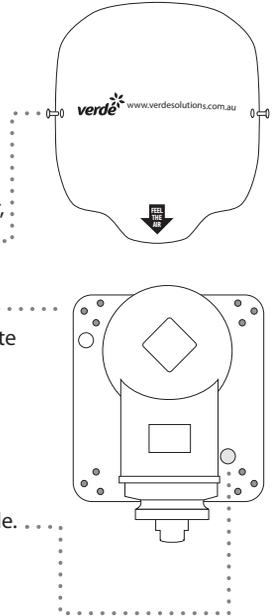

Women 110 cm

Children 90 cm

Handicapped 94 cm

Instructions

- Use supplied Allen key to remove screws from each side of the dryer, to release and remove outer case.
- Secure unit to wall via preferred mounting points, using supplied screws and toggles or other appropriate fixings.
- Ensure supplied rubber spacers are used between wall and backplate of dryer, to prevent vibration.
- Replace cover ensuring screws are flush.
- Plug unit in to power supply and switch on.
- This unit may be hardwired by a qualified electrician.

NOTE Hardwiring requires removal of plastic disc to expose thread hole.

Care and Maintenance

Wipe with a soft damp cloth.

Do not use harsh detergents or solvents as these may damage the surface.

Contents

Drying unit • 5 x 30mm self tapping screws • Allen key • User manual.
