

Kilargo IS9070 Finger Guard - Clear Anodised Aluminium

LO-IS9070

PRODUCT OPTIONS

DESCRIPTION

Trapping fingers in hinged doors can cause horrendous injuries. The risk is especially high in locations where young children are present; ie, child care centres, schools, restaurants, fast-food outlets, etc.

The finger guard seals provide the shield. These seals can provide protection on both sides of the door by using the IS9050 or IS9055 on the hinge knuckle side and the IS9070 on the hinge cavity side (opening side) of the door.

IS9070 includes a unique, integral smoke and acoustic fin. It can be used in conjunction with the IS7025si acoustic seal around the remainder of the door perimeter for a comprehensive sealing and finger protection system.

Standard Length

2250mm
2500mm
(also available in 250mm increments from 1000-3000mm to special order)

Standard Colours

Silver anodised aluminium with grey PVC cover strip and black gasket

SPECIFICATION

MPN	IS9070
Brand	Kilargo
Product Width	71mm
