LO-IS8035SI

PRODUCT OPTIONS

Door Seal Length: 380mm
600mm
820mm
920mm
1070mm
1220mm

DESCRIPTION

Medium duty, automatic door bottom seals which can be semi-rebated (IS8035si) or face-fixed (IS8035si or IS8036si) to the bottom edge of single action doors. The seals have a spring loaded mechanism which lifts the seal clear of the floor as soon as the door is opened. Pressure against the door jamb on the adjustable strike button operates the seal automatically. IS8035si: This seal can be face-fixed or semi-rebated to the door bottom using the fixings provided. When the seal is to be semi-rebated, the seal is mounted into a 37mm deep x 13mm wide machined groove. The screw line is covered by an aesthetic flexible PVC cover strip. Both seals have brass adjustment buttons and injection moulded, push-fit nylon end plates plus a high efficiency mechanism to assist with the closing force requirements detailed in AS1428/1 (Design for Access and Mobility).

Gap Size

Min. 3mm / Max. 10mm

Standard Lengths with Maximum Cut-back sizes

380mm seal cuts to 275mm
600mm seal cuts to 380mm
