

# Schlage eGO Smart Hotel Lock

**SKU** SCHLAGE-EGO

**MPN**

## DESCRIPTION

Designed specifically for the hospitality industry, the Schlage eGO Smart Hotel Lock makes guest access simple. Combined with Schlage Breeze Hotel, the Schlage eGO Smart Hotel Lock is a complete, electronic, guest and staff access system.

The Schlage eGO provides simple access options via the Schlage Breeze Hotel app on a smartphone, access card, or mechanical key override.

This lock is powered by Alkaline batteries (AAA) which ensures the lock remains fully functional even in the event of a power failure.

For remote access to the Schlage eGO, the lock can be paired with the Schlage Wi-Fi Bridge (BZ100) sold separately.

Schlage eGO can be operated with the Schlage Breeze Hotel app to allow virtual check-in or remote access for guest lock-outs

Privacy turn on the internal plate provides led indication of room status

Programme cards or app-based access for given time periods, days of the week i.e. staff shifts

For app integration with existing PMS systems, Schlage has an SDK / API available

Quickly and easily cancel access for lost or stolen cards / phones

View the access audit trail. Easily trace who opened the door and when

New cards automatically cancel previous ones, guaranteeing security

Schlage Breeze Hotel requires a computer with Windows 10, internet connection, and a Card Encoder to read and programme cards
