

Precision PLS 24 Door Magnet Catch - Satin Stainless Steel

SKU AHPLS-24PRO

MPN PLS-22

DESCRIPTION

Heavy duty concealed magnetic catch suitable for full size doors (eg. wardrobe/cupboard, double internal doors).

Features:

- Can be used anywhere a roller/ball catch etc. would normally be fitted.
- As magnets don't touch (after installation)
- The catch will never wear out!
- Lifetime guarantee (for magnetism).
- Can be painted over.
- No latch noise when opening and shutting the door (unlike a roller/ball catch).
- Completely concealed when door closed. No unsightly protruding strike plate lip (unlike a roller/ball catch).
- Can be used to help keep problem doors shut (eg. with week door closers, electric strikes, week roller mortice locks, double sliding doors).
- Quick and easy to install. No chiseling required. Ezifit stainless steel housing cup automatically sets the magnets perfectly parallel to each other, essential for precise power adjustment.
- Power adjustment packers. Increase magnetic holding strength by inserting power adjustment packers (inside housing, under magnet) as required. Supplied in four sizes; 0.5mm - 3mm thick, for precise power adjustment.
- Self adhesive/magnetic cover plate (Brushed Stainless Steel)
- Protects magnets from impact damage during installation.
- Protects magnets from corrosion.
- Conceals magnet and screw head for a more attractive finish.
- Poron Xrd Foam impact absorption pad
- Use (especially with double doors) to further reduce impact noise and bouncing of door on frame when shutting.
- Low compression set. After impact, foam pad will return to its original thickness indefinitely.

SPECIFICATION

MPN	PLS-22
Brand	Precision Lock Services
Product Height	7mm
Product Warranty	Limited Lifetime
Product Diameter	24mm
Product Finish or Colour	Satin Stainless Steel (SSS)
